

PLACEMENT & DIMENSIONS

PREPARE YOUR ARTWORK ACCORDING TO THE SPECIFICATIONS BELOW. PLACE YOUR ARTWORK DIRECTLY ONTO THE TEMPLATE ABOVE. DIMENSIONS ARE LISTED BELOW AT 100% SCALE.

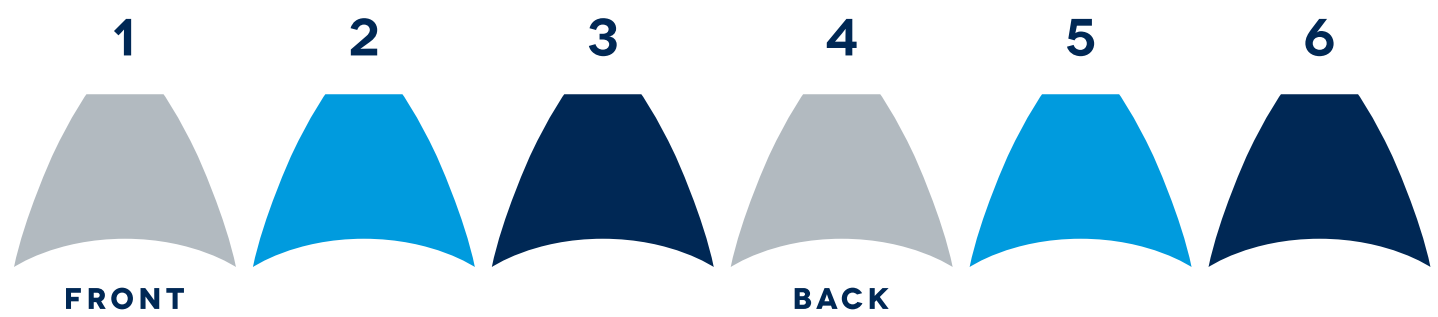

- BLEED AREA (CUT SIZE) —**
OUTERMOST DARK GRAY SHAPE » 65.5" WIDE x 51" TALL
To prevent any unwanted white border from showing at the top panel edges, be sure to extend background colors and/or design elements to this guideline.
- VIEWABLE AREA (FINISHED SIZE) —**
LIGHT GRAY SHAPE » APPROXIMATELY 64" WIDE x 49" TALL
This guideline shows you approximately what will be seen once the vinyl has been sewn.
- EDGE OF STITCHING —**
GRAY DASHED LINE » APPROXIMATELY 63.25" WIDE x 47.375" TALL
This guideline is to show you approximately where the seam will be sewn onto each top panel. The vinyl this is printed on is stretchy and hand sewn, therefore, this line may vary. All important elements (text, logos, etc.) should remain at least 2" from this guideline.
- LOGO PLACEMENT (SAFE ZONE) —**
INNER WHITE RECTANGLE » 34.75" WIDE x 22" TALL
Use this area for centering logos and/or images on the top canopy panel. Due to the curvature of the gazebo frame, elements will be difficult to view from ground level if they are placed too high on the template. Therefore, all important elements (logos, text, etc.) should be placed no lower than 4.25" from the center of the bottom and placed no higher than 12" from the center of the top.

HOW IT WORKS

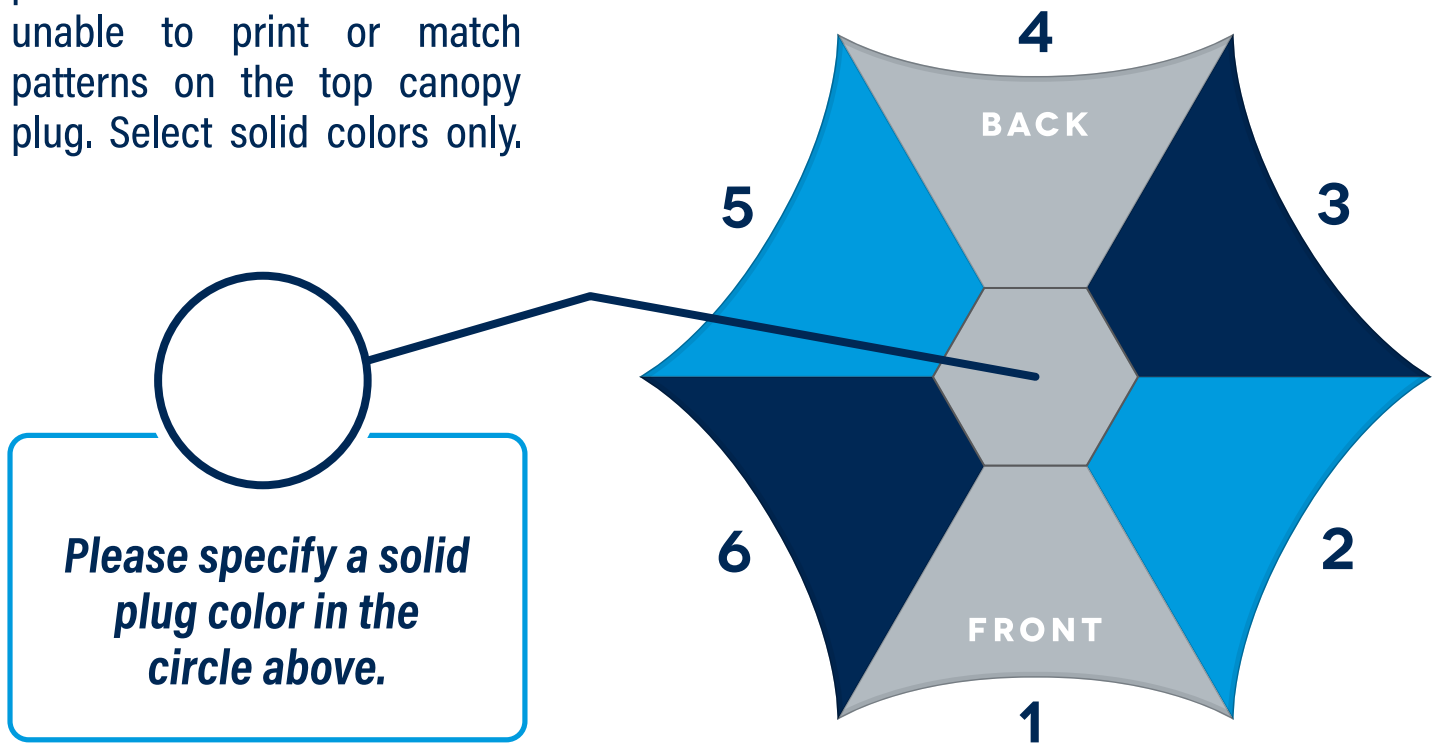

GAZEBO TOP CANOPY —
Each gazebo top canopy is made up of 6 panels. The panels are printed separately and then stitched together in a dome-like configuration. It is then stretched over and attached with button snaps to the frame.

Each of the 6 panels can have the same design, alternate, or they can all be unique. If you are submitting more than one panel design, follow the below diagram to determine where you would like each panel to be sewn in the sequence, 1-6. Panel 1 will be at the front center of the Gazebo. Panel 4 will be at the rear of the gazebo, which is where the bottom frame is open for entrance/exit. Please note that because the top canopy is snapped onto the frame, it can be rotated and installed with any panel facing the front.

TOP CENTER PLUG —
Located at the center of the top canopy, a small, hexagonal plug connects the 6 top panels together (See diagram below, right). Though one cannot see more than the edge of the plug from the ground level, the plug will be printed in whatever matching or contrasting color you would prefer. Please note that we are unable to print or match patterns on the top canopy plug. Select solid colors only.

CONTACT

Please contact the graphics department at The Great Gazebo with any questions regarding our Product Templates or Artwork Requirements.

ARTWORK SETUP

- COLORS —**
Use the Pantone+ Solid Coated chart for spot colors. Submit all artwork and raster images in CMYK format for the closest color match. For the best and darkest black use the CMYK formula C=20 M=20 Y=20 K=100.
- RESOLUTION —**
All digital artwork is printed at 100 DPI (dots per inch). As this template is 10% scale, please be sure all raster images are 1000 DPI at the 10% size (the equivalent of 100 DPI at 100% size). Exceeding the resolution will only create unnecessarily large file sizes.
- BEFORE SUBMITTING ART —**
All text and logos are sent with fonts as outlines or with font folder included (OpenType fonts only). Adobe Creative Cloud Fonts are also accepted. All linked images/artwork must be included in a separate folder or embedded into the Illustrator file. Accepted file formats: AI, PSD, EPS, Print Quality PDF.
- ARTWORK SUBMISSION —**
Artwork files under 25MB can be submitted via email. Larger files can be uploaded to our website. Go to greatgazebo.com and click "Contact" on the top menu.
- ADDITIONAL TEMPLATES —**
If you are also preparing an 8' Gazebo Lower Vinyl Wrap and/or Door layout, please make sure to download the separate template(s) from our website: greatgazebo.com
- Please refer to our Artwork Requirements PDF for a complete list of specifications.*

DO NOT ROTATE OR SCALE —
Please do not rotate or scale the gazebo templates. Artwork to be submitted at 10% scale.
